

# ENGINEERING CHINA

SUMMER PROGRAM  
JUNE 24 – AUGUST 11, 2018

## YOU ARE INVITED

The China Summer Engineering Program at Southern University of Science and Technology (SusTech) offers University of Notre Dame students from the Department of Aerospace & Mechanical Engineering an opportunity to apply their engineering skills to a corporate-sponsored design project alongside students from one of the fast rising universities in China. Program participants will work together with SusTech students in international teams to solve an engineering design problem.

This is a 7-week program for which participating Notre Dame students will receive 6.0 credits, equivalent to two courses at the University of Notre Dame. Participants will reside within SusTech campus for the duration of the program. Successful project completion will require effective global and cross-cultural collaboration, providing participants a unique opportunity to develop their international teamwork skills.

## ELIGIBILITY

- Sophomore or Junior level College of Engineering students at the University of Notre Dame
- A strong academic record
- Exceptional motivation, emotional maturity, and a high aptitude for adapting to new environments

## FACULTY ADVISOR

- Bill Goodwine, Professor - Aerospace and Mechanical Engineering, University of Notre Dame

INTERNATIONAL  
Study Abroad

# JUNE 24 – AUGUST 11, 2018

## PROGRAM FEE

US \$8,000 (An automatic scholarship of \$1500 is available to accepted students.)

PROGRAM FEE COVERS THE FOLLOWING:

- 6.0 credits from the Department of Aerospace & Mechanical Engineering
- On campus housing at SusTech
- GeoBlue Insurance
- Program sponsored activities

PROGRAM FEE DOES NOT COVER THE FOLLOWING:

airfare, meals, local transportation, phones, passport and visa fees, immunizations, textbooks, and personal spending money.

Additional funding is available through the Liu Institute for Asia and Asian Studies. Interested students should apply directly through the Institute.

## APPLICATION

The on-line application for the 2018 China Summer Engineering Program opens on November 20, 2017. Decisions will be provided on a rolling basis starting on December 1.
